THE FAST AND THE FURIOUS: TOKYO DRIFT

SOLUTION: MACHINES

- Step 1: Fill in the blanks so that whenever colored symbols between two rows match, you use the same letter in the associated blanks. Most of the resulting entries will be car names by make and model. See the next pages for the names.
- Step 2: Transform the entries that aren't real cars by replacing the model with a synonym that actually is a model of the given make. For instance, change HONDA TREATY to HONDA ACCORD. See the next page for the transformed models, in red.
- Step 3: Read the first letters of the transformed models to obtain **MACHINES**, the final answer.
