Answer: BRING SCISSORS TO CHANTANEE THAI

- Step 1: For each set of five words, identify the commonality among those words. The commonalities are shown in place of the words on the following page.
- Step 2: For each commonality on the left, identify the commonality on the right that's similar. The similar commonalities will be somewhat opposite of each other. For each pair of similar commonalities, draw a line connecting their dots; these lines are shown in blue on the following page.
- Step 3: Read the uncrossed letters. They spell "READ ALONG THE LINES," as seen in black on the following page.
- Step 4: For each dot on the left, read the letters crossed by the line that starts at that dot. Consider those dots in order from top to bottom. The answer you read this way is **BRING SCISSORS TO CHANTANEE THAI**, as seen in red on the following page.
